

Centurion - High volume industrial traffic barriers

Lots of vehicles coming in and out? You need something that goes up and down. Fast!

The principle features of the system are:

- Battery backup
- High volume capability
- Rapid boom pole raise (3m version < 1.2sec)
- Smooth intelligent speed control
- High torque boom pole operation
- Robust, durable and slim-line operator casing
- LCD user interface for simple set up
- Onboard NOVA rolling code (Keeloq encryption) multichannel receiver with selective delete
- Integrated ChronoGuard timer functionality
