Proprietary Telephone

KX-T7710

Panasonic's new KX-T7710 proprietary telephone is stylish, easy to use, and affordable. Equipped with a large, convenient One-touch Button Panel, Message/Ringer Lamp and Data Port, the KX-T7710 is ideal as an office or hotel room phone. A number of additional functions are available when connected to a Panasonic PBX system.

Message/Ringer Lamp and One-Touch Call Return

The KX-T7710's message/ringer lamp helps you catch all the important calls -- even when you're not within earshot of the phone. A large, easy-to-see orange light illuminates to visually alert you when a call comes in or when someone has left a message. It's easy to return calls, too. When the KX-T7710 is connected to a Panasonic PBX and set to PBX mode, simply press the message button to automatically call back the person who left a message.

Data Port for Connecting a Communication Device

A second jack on the right side of the phone lets you connect a computer, modem, fax machine, answering machine, or other single-line device. An RJ11 modular jack is available.

One-Touch Buttons for Quick, Easy Dialling

The KX-T7710's one-touch buttons save you time and trouble when calling a client, customer, or associate you often speak with. Simply press one of the eight* one-touch buttons and the KX-T7710 instantly dials. When using a Panasonic PBX system[+], you can preset the one-touch buttons at the PBX system. A hotel, for example, can set these buttons to call the front desk, housekeeping, or room service, and guests are unable to change them.

* There are eight one-touch buttons in PBX mode, five in Normal mode.
[+] Depending on the PBX model and version. Consult your Panasonic dealer for details.

PBX mode

Normal mode

Hotel room example.

Flash/Recall
Used to send a flash signal in order to access a PBX feature (ex., Hold, Transfer, or Three-party Conference).

Redial
Used to redial the last dialled number.

Pause *(Normal mode)*
Used to insert a pause when storing a telephone number.

Auto *(Normal mode)*
Used for Speed Dialling.

Program *(Normal mode)*
Used to enter the programming mode.

Wall Mountable
If there's no suitable desk space for your KX-T7710, simply mount it on the wall.

3-Step Ringer Selector
You can adjust the ringer volume in three steps (low/middle/high).
