

Centurion D2 Sliding Gate Operator

Domestic Sliding Gate Operator, suitable for gates up to 250kg.
Prepare for your sliding gate to be turbocharged.

Sleek, strong, stylish - and even eco-conscious - this CENTURION has it all.

Main features:

- Battery backup
- Rapid Operating Speed - slower speed can be selected
- Multiple operating profiles
- Smooth acceleration and deceleration
- Exceptionally easy system set up via simple controller
- Onboard NOVA multi channel receiver with selective delete
- Reliable Operation - Over 30,000 cycles, that's around ten years on the average domestic gate
- Lockable, easy manual override
- Electrical spike protection against lightning and power surges
- Minimal materials used for construction - almost 100% recyclable
